by other roasters on rotation

Filter coffee 4,00

*selected coffee extracted in:
V60, Chemex, or Aeropress*

Cold Brew 4,00

The “filter coffee” is a longer extraction of the espresso, served in a large cup, which allows you to obtain a coffee to be tasted slowly, so as to better perceive its aromas and appreciate it even during cooling.

The Cold Brew, is its version obtained with a cold infusion, served with ice.

OUR SUPPLIERS

We give coffee the same respect that we give the rest of the meal, so that it lives up to the other courses.

Perfero is the roastery with which we collaborate mainly, but we also host others, on rotation, to make sure you get to know different realities of this new growing world.

We offer different types of extraction, that will please any palate. Ask the dining room staff for information, we will be happy to accompany you to the coffee that will best satisfy your taste.
